Preface

This volume of *Image and Signal Processing* contains the Proceedings of the 11th International Conference on Image and Signal Processing (ICISP 2015) held in Bangalore, India, during August 21-23, 2015. Some of the best researchers will deliver keynote addresses in the theme areas of the Conference. This gives an opportunity to the delegates to interact with these experts and to address some of the challenging problems in the areas of Image and Signal Processing.

The 11th International Conference on Image and Signal Processing (ICISP-2015) attracted over 507 submissions. Through rigorous peer reviews, 96 high quality papers were recommended by the International Program Committee, out of which 46 papers are from ICISP. The ICISP Conference Series is one of the first series of International Conferences on Information Processing that aptly focus on the tools and techniques for the development of Information Systems in general.

Following the success of the past seven years of ICIP events, ICISP 2015 is devoted to novel methods in the fields of Signal Processing, Speech Processing, Pattern Recognition, Image Compression in Telemedicine Applications, Image Encryption, Image Retrieval, Image Segmentation, Face Recognition, Palm Print Recognition, Remote Sensing Images, Text Localization, Feature Extraction, Audio and Video Signal Processing, Biometric Applications, Script Identification etc.. The Conference features several keynote addresses in the area of Image and Signal Processing. These areas have been recognized to be the key technologies poised to shape the modern society in the next decade.

On behalf of the Organizing Committee, we would like to acknowledge the support from sponsors who helped us to achieve our goals for the Conference. We wish to express our appreciation to Elsevier for publishing the Proceedings of ICISP 2015. We also wish to acknowledge the dedication and commitment of the Elsevier Editorial Staff. We would like to thank the authors for submitting their work, as well as the Technical Program Committee Members and Reviewers for their enthusiasm, time and valuable suggestions. The contribution from the Organizing Committee in setting up and maintaining the online submission systems, assigning papers to the reviewers and preparing the camera-ready version of the Proceedings is highly appreciated. We would like to profusely thank them for making the ICISP 2015 a success.
